

AGENDA MEMORANDUM

To: Rueter Hess Recreation Advisory Board
Thru: Ron R. Redd, P.E., PWSD District Manager
From: Maleia Good, Project Manager for PWSD
Title: October Fishery Update

Discussion items for the RAB:

- Due to the unusually hot temperatures the last week of September, Aqua Sierra decided to push back the fish survey. They currently plan to be on the reservoir October 10th, and will have their preliminary data to share ASAP. We will strive to have a verbal update to share with the Advisory Board at the Oct 11th meeting, with the formal report later.
- Fish habitat boulders have been relocated from The Canyons Tank to Rueter-Hess. Actual detailed placement of the boulder fish structures is being prepared. Additional granite rock has also been delivered for placement.
