b. Budget Request

Staff brought 2 supplemental budget requests to the RAB. One is for the sonar to keep track of underwater obstacles while on the water. The second is a request for the some type of mat or liner for the inside surface of the patrol boat.

i. Supplemental Request for Sonar

This request is for sonar to keep track of underwater obstacles on the patrol boat.

Staff requested a supplemental budget request in the amount not-to-exceed \$2,200.00 for a sonar with GPS and multi-directional scanning capabilities.

Board Chair, Mr. Wasserman, asked for a motion from the Board to recommend the supplemental budget request in the amount to not to exceed \$2,200 for a Sonar with GPS and multi-directional scanning capabilities for the patrol boat.

ii Supplemental Request for Mats for Patrol Boat

Staff made a second request for a mat or liner for the patrol boat.

Staff acquired three quote options that were provided to the RAB. The request is for a not-to-exceed amount of \$7,000.

Ranger input and product research is being conducted for the best option for traction, glare, maintenance, and durability.

Board discussed how this may affect the buoyancy of the boat. Staff is researching all the options and making sure it will not affect use and the warranty of the boat.

The heat and reflection from the surface of the boat causes extreme heat and sun exposure. The mat/liner color would be important. Staff would choose a lighter gray or dirt color to minimize the heat and the sun's reflection. Maintenance would be minimal.

The installation could be completed on our days the reservoir is closed to the public.

Board Chair, Mr. Wasserman, asked for a motion from the Board to to approve the supplemental budget request in the amount not-to-exceed \$7,000 to purchase and install a liner or mats in the patrol boat.

RESULT: APPROVED
