The provisions of this Development Plan shall run with the land. The landowners, their successors, heirs, or assigns shall be bound by this Development Plan, as amended and approved by the Community Development Director or the Board of County Commissioners.

G-3. Adoption.

The adoption of this Development Plan shall evidence the findings and decision of the Douglas County Board of Commissioners that this Development Plan for Sterling Ranch is in general conformity with the Douglas County Comprehensive Master Plan; is authorized by the provision of Section 15 of the Douglas County Zoning Resolution; and that such Section 15 and this Development Plan comply with the Colorado Planned Unit Development Act of 1972, as amended.

G-5. Enforcement.

S-1. DEDICATIONS

Subject to the conditions set forth in this Development Plan, the following dedications and offers of dedications of land shall be made (with all water rights retained by the Owners) to fulfill concurrency and subdivision requirements in connection with the development of the Property:

S-1.1 Parks, Open Space and Regional Trails.

All parks, open space and trails dedicated and accepted pursuant to this Section S-1.1 shall remain open to public use, subject to the provisions of this Section S-1.1 and subject to seasonal closures and other rules and regulations acceptable to the entity to which such dedication is made and accepted.

(A) Regional Parks.

(i) General. Subject to the conditions set forth in this Development Plan, Owner shall dedicate, in phases as required to satisfy the Parks Requirement or as otherwise required by Commitments Matrix, portions of the land depicted generally on the Parks, Open Space and Trails Plan as Burns Regional Park, Sterling Gulch Regional Park, and Heritage Regional Park. Each such dedication shall be made to a special district or another government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. Notwithstanding the foregoing, each portion of the Regional Parks dedicated in accordance with this Section S-1.1 (A) shall provide a functional addition to the Regional Park and shall be dedicated in a manner and in amounts that allow for functional and cohesive Regional Parks. Contemporaneously with the first dedication of any portion of any Regional Park, Owner shall provide the County with a plan depicting planned improvements for such portion of such Regional Park and improvements that may be constructed within future phases (future dedications) of such Regional Park. Such plan shall not be binding in any manner, but shall show how the entirety of such Regional Park could be developed. After such dedication of any land for a Regional Park, such land shall be owned and maintained by the entity to which the dedication was made and by which such dedication was accepted.

(ii) Sterling Gulch Regional Park and the Reservoir Easement. Contemporaneously with the dedication of any portion of Sterling Gulch Regional Park pursuant to Section S-1.1 (A)(i), Owner may reserve from such dedication the right to have all or any portion of such land, as identified by Owner, reconveyed to Owner at Owner's election at any time prior to December 31, 2035, on the condition that simultaneously with such reconveyance to Owner such reconveyed land is subjected to the Reservoir Easement.

(iii) Public Access Regional Parks dedicated by Owner shall permit public access to and use of the area dedicated in perpetuity, subject to seasonal closures and other rules and regulations acceptable to the entity to which such dedication is made and accepted.

(B) Reservoir Easement.

Owner may designate portions of the Property within or near Sterling Gulch Regional Park as part of the Sterling Gulch Reservoir. Subject to the conditions set forth in this Development Plan, Owner may subject portions of such land to the Reservoir Easement in phases as required to satisfy the Parks Requirement or as otherwise required by Commitments Matrix. If the Reservoir Easement is granted, it shall be granted to a special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. If the Reservoir Easement is granted, it shall grant public access to and use of Sterling Gulch Reservoir for purposes of recreational activities that do not involve human body contact with reservoir water. Such permitted uses include fishing from the shore and from piers, non-motorized boating, wildlife observation, and such other uses as Owner and the County may agree. If the Reservoir Easement is granted, it shall either: (i) require that a majority of the land subject to the Reservoir Easement maintain a water depth of at least ten feet at all times except in case of exigent need to address water supply needs, and that access to the water's edge be provided, and/or (ii) other provisions be made for active or specialized recreation within the area burdened by the Reservoir Easement. If the Reservoir Easement is granted, the use of Sterling Gulch Reservoir by the public shall be subject to: (a) seasonal closures, (b) the Owner's right to use such property for water storage (including the installation, construction, use, operation, maintenance, repair and replacement of pipes, structures, facilities and other improvements related thereto), (c) the Owner's right to use such property for any use that does not unreasonably interfere with the uses set forth in the Reservoir Easement, and (d) other rules and regulations acceptable to Owner and the County. Owner may convey or otherwise transfer any or all of its fee interest in Sterling Gulch Reservoir, and may assign or otherwise transfer any or all of its rights with respect to the Sterling Gulch Reservoir (including without limitation, mineral, oil and gas interests and access rights) to a special district or any other person or entity.

(C) Open Preserve (O1).

Subject to the conditions set forth in this Development Plan, Owner shall dedicate, in phases as required by the Commitments Matrix, the land depicted generally on the Parks, Open Space and Trails Plan as "O1". Each such dedication shall be made to a homeowners' association, special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. After such dedication of any portion of O1 land, such land shall be owned and maintained by the entity to which the dedication was made and by which such dedication was accepted. Uses on such dedicated land shall be restricted as set forth in Table 2.

(D) Multi-function Open Space (C1).

Subject to the conditions set forth in this Development Plan, Owner shall dedicate, in phases as required to satisfy the Parks Requirement (as more particularly set forth in the Commitments Matrix), portions of the land depicted generally on the Parks, Open Space and Trails Plan as "C1". Each such dedication shall be made to a homeowners' association, special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. After such dedication of any portion of C1 land, such land shall thereafter be owned and maintained by the entity to which the dedication was made and by which such dedication was accepted. Uses on such dedicated land shall be restricted as set forth in Table 2.

(E) Other Parks.

Subject to the conditions set forth in this Development Plan, Owner shall dedicate, in phases as required to satisfy the Parks Requirement (as more particularly set forth in the Commitments Matrix), Other Parks (as described in Table 4), Each such dedication shall be made to a homeowners' association, special district or other government entity as designated by the Owner: provided, however, that Owner may not so designate the County unless the County agrees. Uses on such dedicated land shall be restricted as set forth in Table 2. Other Parks shall be distributed roughly evenly throughout the developed portions of the Property, based on need.

(F) Form of Dedication.

Notwithstanding any other provision of this Development Plan, dedications of any portion of the Regional Parks, Open Preserve (Planning Area O1), Multi-function Open Space (Character Zone C1) and Other Parks, may be by deed, by plat or by other mechanism acceptable to the Owner making such dedication, and the entity to which such dedication is made, including, without limitation, by conservation easement.

Owner may dedicate easements for Regional Trails other than those shown generally on the Parks, Open Space and Trails Plan, Each such dedication shall be made to a special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. Notwithstanding any provision herein, Owner shall not be required to obtain dedicated easements for any segment of Regional Trails located outside of the Property.

(iv) Ownership and Maintenance. After dedication of any easement for Regional Trails pursuant to Section S-1.1 (G)(iii), all Regional Trails within such easement shall be owned and maintained by the entity to which such dedication is made and by which such dedication is accepted.

S-1.2 Schools.

(A) Dedication.

Sterling Ranch will dedicate 110 acres of land for public schools within the Sterling Ranch PD.

Dedication of each school site by Owner to Douglas County will occur upon the County or public school demonstrating a reasonably necessary need for the property for the construction of a school, and upon provision by the County or public school of an approved 5-year Capital Plan or a Bond Plan demonstrating the ability to fund and construct a school on a given site.

The final boundaries of the school sites depicted generally on the land use plan will be decided during the process of completing the Preliminary Plan for the area in which a school site is intended to be included.

If a school site, as identified on the Preliminary Plan, has not been conveyed by Owner to Douglas County at or prior to the recording of the Final Plat in which the school site is located because the County or public school has not shown a reasonably necessary need for the site or has not demonstrated the ability to fund and construct a school on that site, the site will be retained and developed by Owner, and Owner will provide an alternative school site for consideration or cash-in-lieu thereof..

(B) Cash-in-lieu.

Cash-in-lieu of land dedication shall be required when deemed, by the Board, to be more appropriate in satisfying the needs of the proposed development and concerned agencies. Owner may provide a cash-in-lieu of land dedication payment to the County or offer other acceptable land for a public school. Any cash-in-lieu payment shall be used for purposes of providing school services or facilities within the Property. The amount of any Cash-in-Lieu payment shall be based on the fair market value of the land that has been identified as a school site in the Preliminary Plan.

(C) Capital Mitigation.

(i) Amount. Owner shall provide $1,500 for each SFDU that is not an AHU, at or prior to the Recording of Final Plat thereof, and $750 for each MFDU that is not an AHU, as a condition of Site Improvement Plan approval thereof, in both cases to be used solely for the School District capital improvements within the Property. All funds provided to the School District pursuant to this Section S-1.2(C) may be used within the current high school feeder area for students generated from the Property until such time as there is enough student population generated from the Property and funding available to build a complete high school feeder within the Property. After such time as there is enough student population generated from the Property and funding available to build a complete high school feeder within the Property, Owner shall not be required to make further payments under this Section S-1.2(C) in respect of any Final Plat or Site Improvement Plan if as of the date Owner desires to Record such Final Plat. or the date of the County's approval of such Site Improvement Plan, as appropriate, the School District has failed to execute and deliver to Owner written commitments restricting the use of such funds to capital improvements within Sterling Ranch, in form and substance reasonably acceptable to Lead Owner.

(ii) In-Kind. Amounts due under this Section S-1.2(C) shall be reduced by the value of any in-kind contributions from Owner to the School District as may be acceptable to Owner and the School District.

This section will be updated based on the final recorded version of the 13th PD Amendment.

(D) Extent.

No dedication, cash-in-lieu thereof, or capital mitigation for schools other than as expressly set forth in this Development Plan shall be required in connection with the subdivision or development of the Property.

(E) Alternate Mechanisms.

Alternate mechanisms of the development and provision of school facilities (including, without limitation, land ownership) may be employed in place of the dedication, cash-in-lieu and/or capital mitigation requirements of Sections S-1.2(A)-(C) if adequate school facilities are provided to accommodate the need created by Sterling Ranch in accordance with County regulations if such alternate mechanisms are acceptable to Lead Owner, the School District and the County.

Alignments for the Primary Thoroughfares are depicted generally on the Thoroughfare Plan. The exact alignments of Primary Thoroughfares shall be determined by Owner at the time of Final Plat thereof and may vary from the depictions set forth on the Thoroughfare Plan or any Neighborhood Plan without the need to amend this Planned Development or any Neighborhood Plan, on the condition that: (1) all plats of such Primary Thoroughfares are approved by the County in accordance with the Subdivision Resolution, (2) such alignments conform to, and are provided at such times as are required by, all other applicable County standards, including without limitation the County's street concurrency requirements set forth in Appendix A of the Zoning Resolution and the Douglas County Roadway Design and Construction Standards, as the same may be modified by any alternate roadway design standards approved by the County, and (3) the overall connectivity and functionality of such Primary Thoroughfares as depicted on the Thoroughfare Plan are maintained.

Notwithstanding the foregoing, Owner shall not be required to dedicate any property pursuant to this Section S-1.3(C) to provide right-of-way along any segment ofTitan Road to the extent right-of-way for a six-lane road along such segment of Titan Road has already been provided at the time of the County's request pursuant to this Section S-1.3 (C).

The dedication of such site shall occur at a time acceptable to the Fire District. Before the Fire District may sell, transfer or convey any land dedicated to the Fire District pursuant to this Section S-1.4(A), the Fire District shall deliver written notice to Lead Owner of its intention to sell, transfer or convey such land. Lead Owner shall then have 60 days to provide written notice to the Fire District of Lead Owner's interest in purchasing all or any portion of such land. If Lead Owner timely delivers to the Fire District a written notice of Lead Owner's interest in purchasing all or any portion of such land, then the Fire District shall not be permitted to sell any portion of such land for the period ending 60 days after the Fire District's receipt of such notice. The purchase of such land by Lead Owner shall be upon such terms and conditions and for such consideration as Lead Owner and the Fire District may mutually agree; however, in no event shall the purchase price exceed the fair market value of such land at the time it was dedicated to the Fire District. With respect to any land dedicated to the Fire District pursuant to this Section S-1.4(A), the right of first refusal negotiation provided in this Section S-1.4(A) shall expire 20 years after the date such land was dedicated to the Fire District.

If, in respect of any sketch plan, minor development final plat or site improvement plan, the water service for improvements proposed therein is proposed to be provided by a New Special District (as defined in Section 18A of the Zoning Resolution) to be created, then evidence pertaining to the creation of such New Special District and execution of all intergovernmental agreements, if any, necessary to provide such service shall be provided to the County contemporaneously with or prior to submittal of such sketch plan, minor development final plat or site improvement plan. The provisions of this SectJon S-2.4 shall not be deemed to modify, and shall be subject to the provisions of the Subdivision Resolution.

S-2.5 Roadway Improvements.

(A) Within the Property.

(i) General. Thoroughfares within the Property shall be provided by Owner or one or more special districts Formed for the Property (unless such Thoroughfares already exist and conform to County standards as the same may be modified by any alternate roadway desig n sta ndards approved by the County) as needed to serve development of the Property at such times as requested by the County in accorda nce with County requirements, as modified by any alternate roadway design standards approved by the County. The following road segments shall be deemed "Thoroughfares within the Property" for purposes of this Section S-2.5, and accordingly, shall be Owner's responsibility to provide, subject to the provisions of this Section S-2.5, provided, however, Owner shall not be required to provide auxiliary lanes along the following roads segments that are needed for access for development (including redevelopment) outside the Property:

a) Titan Road from Roxborough Park Road to the western boundary of the Xcel Parcel where the Xcel Parcel meets Titan Road (as shown on the Thoroughfare Plan),

b) Roxborough Park Road from Titan Road to the most northerly point where the Property is contiguous with Roxborough Park Road (as shown on the Thoroughfare Plan),

c) the segment of Rampart Range Road that is contiguous with the Property (as shown on the Thoroughfare Plan), and

d) the segment of Moore Road between Titan Road and the most southerly point where the Property is contiguous with Moore Road.

(ii) Road Standards. All Thoroughfares within the Property shall be designed and constructed, at no cost to the County, in accordance with all applicable County standards, as the sa me may be modified by any alternate roadway design standards approved by the County.

(B) Traffic Impact Studies.

To the extent requested by the Cou nty, each Traffic-generating Application shall include a traffic impact analysis developed in accordance with the Douglas County Roadway Design and Construction Standards.

(C) Outside the Property But Within the Concurrency Area.

Please refer to the *Sterling Ranch Infrastructure Agreement Concerning the Construction of Roadway Improvements for the Titan Road and Waterton Road Concurrency Segments.* This agreement was implemented to clarify certain roadway commitments as described in the Sterling Ranch Planned Development.

(i) Titan Road Concurrency. If, at the time a Traffic-generating Application is submitted to the County, then-existing traffic volumes plus the traffic volumes projected to be generated by the development proposed by such Traffic-generating Application would cause the Titan Concurrency Segment to fall below the County's Road Concurrency Standard, then the County may condition the approval of such Traffic-generating Application upon a requirement that no building permits for traffic-generating improvements proposed by such Traffic-generating Application shall be issued, or, in respect of traffic-generating improvements that do not require a building permit, a requirement that such improvements may not operate in a manner that will generate material traffic, as appropriate. until there is deemed provided either the improvements set forth in Section S-2.5(C) (i)(a) or Section 2.5(C) (i)(b), as selected by the Owner submitting such Traffic-generating Application:

(a) the combination of: (7) through lanes within the Titan Concurrency Segment as then-needed to bring the Tita n Concurrency Segment to at least the County's Road Concurrency Standard, however, collectively, all such Owners shall not be required to provide more than six through lanes therein, and (2) improvements to the following intersections/ interchanges as then-needed to bring the Titan Concurrency Segment to at least the County's Road Concurrency Standard: (A) Titan Road and Highway 85, including highway ramps, (B) Titan Road and Titan Park Circle, and (C) Titan Road and Wildlife Way, plus improvements to other roads as needed to meet the County's Road Concurrency Standard, or (b) such other improvements as are then-necessary to bring the Titan Concurrency Segment to at least the County's Road Concurrency Standard, which other improvements may include construction of Southern Connector Improvements if acceptable to such Owner and the County.

(ii) Waterton Road Concurrency. If, at the time a Traffic-generati ng Application is submitted to the County, then-existing traffic volumes plus the traffic volumes projected to be generated by the development proposed by such Traffic-generating Application would cause the Waterton Concurrency Section to fall below the County's Road Concurrency Standard, then the County may condition the approval of such Traffic-generating Application upon a requirement that no building permits for tra ffic-generating improvements proposed by such Traffic-generating Application shall be issued, or, in respect of traffic-generating improvements that do not require a building permit, a requirement that such improvements are not allowed to operate in a manner that will generate material traffic, as appropriate, until there is deemed provided either the improvements set forth in Section S-2.5(C)(ii)(a) or Section 2.5(C)(ii) (b), as selected by the Owner submitting such Traffic-generating Application:

(a) the combination of: (1) through lanes within the Waterton Concurrency Segment as then-needed to bring the Waterton Concurrency Segment to at least the County's Road Concurrency Standard, however, collectively, all such Owners shall not be required to provide more than four through lanes therein, and (2) the following improvements as then-needed to bring the Waterton Concurrency Segment to at least the County's Road Concurrency Standard: (A) a bridge over the Highline Canal as it intersects with the Waterton Concurrency Segment, however, collectively, all such Owners shall not be required to provide more than four lanes within such bridge, (B) a bridge over the South Platte River as it intersects the Waterton Concurrency Segment, however collectively, all such Owners shall not be required to provide more than four lanes within such bridge, and (C) improvements to the intersections of Waterton Road and the following streets and accessways: (A) Dante Drive, (B) Campfire St., (C) Liverpool Circle/Hunters Hill Lane, (D) the access driveway located between Lot 118 and Lot 177E according to the Chatfield Farms Plat, (E) the access driveway located on Lot 117E of the Chatfield Farms Plat. and (F) Rampart Range Road, or

(b) such other improvements as are necessary to bring the Waterton Concurrency Segment to at least the County's Road Concurrency Standard, which other improvements may include construction of Southern Connector Improvements if acceptable to such applicant and the County.

(iii) Road Design to Accom modate Lawrence Commercial Traffic. All improvements to North Moore Road affecting the access to/egress from North Moore Road and Lawrence Construction Company located on the Lawrence Parcel shall be designed in accordance with County standards; however to the extent accepta ble to the County, Owner shall also design such improvements to accommodate turning movements for girders and other long bridge components traditionally hauled by Lawrence Construction Company. Similarly, all improvements to the intersection of North Moore Road and West Tita n Road shall be designed in accordance with County standards; however to the extent acceptable to the County. Owner shall also design such improvements to accommodate a turning radius so as to not restrict a right turn from northbound North Moore Road onto West Titan Road by commercial vehicles traditiona lly used by Lawrence Construction Company.

(iv) Provided. As set forth in the County's concurrency regulations contained with the zoning Resolution as of February 9, 2009 (the date the application for the Development Plan was submitted to the County for approval) , for purposes of this Section S-2.5(C), improvements shall be deemed provided in respect of any proposed residential development if (a) such improvements are under construction and will be available at the time the impacts from such proposed residential development will occur, (b) such improvements are guaranteed by an enforceable development agreement, subdivision improvement agreement or other agreement that ensures such improvements will be availa ble at the time the impacts from such proposed residentia l development will occur, (c) such improvements are Planned Capital Improvements (as such term is defined in the Zoning Resolution), or (d) such other provision as may be acceptable to the County is made for ensuring such improvements will be available at the time the impacts from such proposed residential development will occur.

(v) Road Standards. Road improvements to be provided pursuant to this Section S-2.5(C) shall be designed and constructed in accordance with all applicable County standards, as the same may be modified by any alternate roadway design standards approved by the County.

(D) State Highways .

(i) System Level Study.

(a)Upon request of the Cou nty, Lead Owner shall pay to the County an amount not to exceed $100,000.00 as its contribution for use by the County, working in conjunction with CDOT and Jefferson County, and other appropriate entities, to develop and secure an approval of findings of a system level study (the "SLS") associated with the 1601 process by the CDOT Transportation Commission or designated approval authority (the "Commission ") , if required by COOT, as generally described in this Section S-2.5 (D) , unless the County and Lead Owner agree otherwise. Such payment shall be made within 30 days of written request from the County.

(b) The SLS shall: (1) analyze traffic on the State Highway Segments projected to be generated from development as of the projected build-out of the Property, (2) determine the improvements to the State Highway Segments that are needed to accommodate such traffic projections, (3) set forth projected costs for such improvements, and (4) set forth the total amount of Lead Owner's obligation to pay its pro rata share of the costs to construct such improvements to the 85 Segment and to the 121 Segment, as calculated in accordance with the provisions of Section S-2.5(D)(ii)(a).

(c) The County reserves the right to expand the SLS to the extent necessary to secure Commission approval of the SLS; provided, however that in no case shall Lead Owner be required to pay more than $1 00,000 toward the cost of the SLS.

(d)The SLS shall be performed by a traffic engineer mutually-acceptable to the County and Lead Owner.

(e)If the Owner desires to advance the processing of final plats prior to Commission approval of the SLS, the pro rata share payments as described and limited in Section S-2.S(D) (ii) (a) related to applications for final plats may be deferred to a date no later than 60 days after the approval of the SLS by the Commission unless the County and Lead Owner agree otherwise. In no case shall the Owner be allowed to defer pro rata share payments related to applications for final plats beyond an aggregate of 1,000 platted lots unless the County and Lead Owner agree otherwise. The pro rata share payments as described and limited in Section S-2.5(D)(ii)(a) related to applications for use by special review, site improvement plan and location and extent may be deferred to a date no later than 60 days after Commission approval of the SLS unless the County and Lead Owner agree otherwise. Notwithstanding the foregoing, if the County expands the scope of the SLS beyond that described above, then the pro rata share payments as described and limited in Section S-2.5 (D) (ii) (a) related to applications for final plats, use by special review, site improvement plan and location and extent may be deferred to a date no later than 60 days after Commission approval of such expanded SLS unless the County and Lead Owner agree otherwise.

(ii) Improvements . Traffic (including future traffic) not generated by development on the Property as well as traffic generated by development on the Property will contribute to the total traffic on the State Highway Segments. Owner desires to be part of a regional solution to provide improvements to the State Highway Segments as needed to accommodate traffic thereon. Accordingly, Owner is willing to make the commitments set forth in this Section S-2.5(D)(ii) .

(a) Owner shall pay its pro rata share of the costs to construct those improvements to the 85 Segment and the 121 Segment, as such costs are determined by the SLS, and as such improvements are deemed necessary pursuant to the SLS to accommodate projected traffic thereon through 2035. Owner's pro rata share of such costs shall be calculated based on the proportionate amount of traffic on each of the 85 Segment and the 121 Segment (considered separately) projected to be generated from development on the Property as of the projected build-out of the Property as determined by the SLS versus the amount of traffic on the 85 Segment or the 121 Segment, as appropriate, projected to be generated by sources other than development on the Property as of the projected build-out of the Property as determined by the SLS. Payments to satisfy Owner's pro rata share obligation under this Section S-2.5(D) (ii)(a) shall be due incrementally as development occurs on the Property as follows: Each of: (1) the Recording of any final plat proposing traffic-generating improvements on the Property submitted to the County by Owner, and (2) the County's approval of any application for use by special review or site development plan proposing traffic-generating improvements on unplatted portions of the Property submitted to the County by Owner, shall be conditioned upon Owner paying to the County the amount equal to the total amount of Owner's pro rata share obligation under this Section S-2.5(D) (ii) (a) for each of the 85 Segment and the 121 Segment, multiplied by the CPI Adjustment Factor therefore, and then multiplied by a fraction, the numerator of which is the traffic expected to be generated from the improvements on the Property then-being proposed by such final plat. use by special review or site development plan, and the denominator of which is the total traffic expected to be generated from development on the Property. Owner shall not be req ui"red to pay any amount due under this Section S-2.5(D) (ii) (a) in respect of any improvements more than once.

(b) Owner shall cooperate in, and encourage the formation of, a regional transportation authority or other vehicle to provide funding for the construction of improvements to the C-470 Segment as deemed necessary pursuant to the SLS to accommodate projected traffic thereon through 2035. Owner shall participate in such regional transportation district or other funding vehicle in the same manner as other participating land owners.

(iii) CDOT Approval. Modifications to intersections at state highways shall be subject to CDOT review and approval.

S-2.6 Trails.

The Regional Trails shown generally on the Parks, Open Space and Trails Plan shall be designed and constructed by Owner, or one or more special districts formed for the Property , in accordance with the standards set forth in Section S-7.1 . Segments of such Regional Trails shall be constructed no later than the time set forth therefor in the Commitments Matrix. Notwithstanding any provision herein, Owner shall not be required to construct any segment of Regional Trails located outside of the Property. Owner shall design and construct the equestrian trail described in S-1.1 (H) no later than the time set forth therefore in the Commitments Matrix.

S-3. OVERALL PARKS COMMITMENT

(d) the number of Regional Trail Acres for which easements are dedicated in accordance with Section S-1.1 (G)(iii) or which are otherwise provided pursuant to the terms of this Development Plan (e.g ., portions of Regional Trails within dedicated rights-of-way, easements located within the Xcel Parcel or the Denver Water Parcel. etc.).

(e) the number of acres of Parks Maintenance Facility Land provided within the Property to the extent the maintenance, storage, service and/or administration facilities thereon support Regional Parks, Regional Trails, Other Recreational Park, or other improvements providing active or specialized recreations, and

(f) 25% of the number of acres of any other portion of the Property upon which Recreational Facilities that are available to the general public, or members of a homeowners association, club or other entity are constructed.

(iii) Recreational Facilities .

(a) General. Owner shall receive credit towards satisfying the Parks Requirement for the number of acres equal to: (1) 100% of the cost of designing, constructing and installing Recreation Facilities provided within the Property, the Xcel Parcel or the Denver Water Parcel, by any person or entity other than the School District; divided by (2) the Fair Market Parks Appraisal Value for such Recreational Facilities; provided that with respect to Recreational Facilities that are owned by a homeowners association, club or other non-governmental entity, and that are: (A) not available for use by persons other than members of such homeowners association, club or such other non-governmental entity, then only 25% of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement, (B) available for use by the general public, with or without a fee, during those times such facilities are open to the general membership of such homeowners association, club or other non-governmental entity, then

Statement Of Commitments, Cont.

STERLING RANCH PLANNED DEVELOPMENT 14TH AMENDMENT

Being a part of Sections 19, 30 and 31, part of the West half of Section 29, and the Northwest quarter of Section 32, in Township 6 South, Range 68 West; also part of the Southwest quarter and the Northeast quarter of Section 2 and part of Section 36, in Township 6 South. Range 69 West; and part of Section 6, Township 7 South, Range 68 West, all of the 6th P.M., Douglas County, Colorado - 3,400.77 Acres- 12,050 Dwelling Units

100% of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement, or (C) available for use by the general public, with or without a fee, during only a portion of the times such facilities are open to the general membership of such homeowners association, club or other non-governmental entity, then a portion between 25%and 100% of the of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement. The exact portion of such costs to be so counted for clause (C) above shall be as agreed between Owner and the County based on the portion of the times such facilities are open to the general public. Notwithstanding the foregoing, no more than 10% of the Parks Requirement may be satisfied by Plazas consisting primarily of hardscape improvements and the Recreational Improvements therein.

The Owner or Special District is required to submit plans through the Douglas County Location and Extent process for the review and approval of park improvements.

(iv) Shared-Use Agreements with School District. Owner shall receive credit towards satisfying the Parks Requirement for the number of acres equal to: (a) a portion of the cost of designing, constructing and installing Recreation Facilities provided within the Property, the Xcel Parcel or the Denver Water Parcel, by the School District that are subject to a shared-use arrangement allowing for use of such facilities by the general public, with or without a fee, when such facilities are not being used by the School District; divided by (b) the Parks Appraisal Value for such Recreational Facilities. The portion of such cost to be credited toward the Parks Requirement shall be determined based on the extent such facilities are available for use by the general public as compared to other Facilities for which credit toward the Parks Requirement can be given.

(B) Fees. Notwithstanding the foregoing, if the fee that is charged for use by the general public is substantially greater than the fee charged to the members of such homeowners association, club or other non-governmental entity, and such difference in fee rates is greater than the customary differences (between the rates changed to the general public versus members) in fees charged for similar facilities in the Denver metropolitan area, then only 25% of the of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement.

(C) Tracking. The County may require that any application for preliminary plan proposing SFDUs or site improvement plan proposing MFDUs, Accessory Units, Caretaker Units or Non-residential Buildings contain a tracking report setting forth the then-current Parks Requirement and credits received toward satisfaction of the Parks Requirement. The tracking report may consist of 1) a one page exhibit showing the location and acreages of proposed park and open space tracts, the number of anticipated dwelling units, and the associated park dedication requirement that the number of anticipated dwelling units would generate, and 2) a one-page Park and Open Space tracking spreadsheet with the applicant's summarization of the community-wide park and open space dedication requirements generated and the credits received to date in accordance with Section S-3.1(A).

(D) Parks Appraisal Value. The term "Fair Market Appraisal Value", with respect to any Recreational Facilities or cash-in-lieu, means the per acre value of a parcel of park land, located within either; (i) the Final Plat or the site improvements plan within which the additional SFDUs, MFDU, Accessory Units, Caretaker Units or Non-residential Buildings, as appropriate, are located, that causes the then-current increase in the Parks Requirement or (ii)a Regional Park as designated by Owner, that Owner would have offered for dedication if Owner was not providing Recreational Facilities or cash-in-lieu to satisfy the Parks Requirement. Such per acre value shall be the amount set forth in an appraisal submitted by Owner that conforms to County standards. For valuation purposes, such appraisal shall assume the subject park land is fully platted and identified as park land in the Plat.

S-3.2 Timing.

The Parks Requirement shall be satisfied pursuant to the schedule set forth in the Commitments Matrix.

S-3.3 Reporting.

As a condition to Final Plat approval or the issuance of a building permit for any MFDU, Caretaker Unit or non-residential building, the County may require that the applicant thereto submit a summary report setting forth how the Parks Requirement has been satisfied. The summary report may consist of a one-page exhibit showing 1) the location and acreages of proposed park and open space tracts, the number of anticipated dwelling units, and the associated park dedication requirement that the number of dwelling units would generate, and 2) a one-page park and open space tracking spreadsheet summarizing the community-wide park and open space dedication requirements generated and the credits received to date in accordance with Section S-3.1(A).

S-4. WILDLIFE AND WETLANDS/RIPARIAN PRESERVATION PLAN

S-4 .1 Protection and Enhancement of Water Resources, including Wetlands and Riparian Areas.

Willow Creek. sections of Sterling Gulch and certain unnamed washes and secondary streams, which include East Willow Creek and a number of unnamed minor swales in the upland areas of the Property are included in the open space network to be dedicated in accordance with this Development Plan. To the extent reasonable, storm water quality areas within the open space network will be designed to create a series of wet meadows and shrub riparian zones (including, without limitation, porous landscape detention, extended detention, wetlands, ponds, constructed wetlands and other best management practices not inconsistent with applicable County requirements). Other portions of the storm water system will be characterized by naturalized streams and swales, herbaceous and scrub/shrub wetlands, and other riparian areas that will provide wildlife habitat. Notwithstanding the foregoing, other best management practices providing water quality, such as extended detention basins and constructed wetlands basins shall be permitted. Sterling Gulch Reservoir is proposed for the north end of Sterling Gulch near Titan Road. If constructed, this reservoir may serve as a water storage facility and may provide aquatic and shoreline habitat for fish, waterfowl, shorebirds, and other wildlife.

S-4.2 Connectivity of Core Wildlife Habitats and Wildlife Corridors .

Portions of the open space network to be dedicated in accordance with this Development Plan serve to connect the Core Conservation Areas. Willow Creek, portions of Sterling Gulch, and certain unnamed drainages within the Property are included in the open space network to be dedicated in accordance with this Development Plan.

(A) Willow Creek Wildlife Corridor.

The width of the Willow Creek Wildlife Corridor may vary but shall be at least 1,400 feet wide on average and not less tha n 1,200 feet wide at any given point, not considering: (i) road crossings and grade-separated crossings, and (ii) narrowings to facilitate road crossings and grade-separated crossings that do not materially hinder wildlife movement through the corridor. One road crossing of this area shall be permitted; other human activities on, and other uses of, these open space areas will be limited as set forth in Table 2.

(B) East Willow Creek Drainage.

The width of the East Willow Creek Drainage may vary but shall be at least 350 feet wide on average and not less than 225 feet wide at any given point, not considering road crossings.

(C) Sterling Gulch Wildlife Corridor.

The Sterling Gulch Wildlife Corridor shall extend from the north boundary of the Property to the south boundary of the Property. The width of the Sterling Gulch Wildlife Corridor may vary but shall be not less than 300 feet wide at any given point; other than: (i) at road crossings and grade-separated crossings, and (ii) narrowings to facilitate road crossings and grade-separated crossings that do not materially hinder wildlife movement through the corridor.

S-4 .3 Grade-Separated Wildlife Crossings.

Owner shall provide grade-separated wildlife crossings in the three locations shown generally on the Parks, Open Space and Trails Plan. The specific locations of such crossings shall be within the Willow creek Wildlife Corridor or the Sterling Gulch Wildlife Corridor, as applicable, and shall otherwise be determined by Owner at the time the relevant thoroughfare is constructed. Such grade-separated wildlife crossings shall be in a form selected by Owner that is either: (a) a culvert, (b) a Thoroughfare bridge, or (c) other means that would allow wildlife to make a safe grade-separated crossing of the subject Thoroughfare. If any grade-separated wildlife crossing is provided by means of a culvert, then such culvert shall have an openness ratio (i .e., the height multiplied by width divided by length) at least equal to 1.5 (as calculated in metric units).

(A) Modifications to Grade-Separated Wildlife Crossings for the Sterling Gulch Wildlife Corridor. If the Owner or special district selects a culvert as the grade-separated wildlife crossing for Sterling Gulch, the Owner or special district may propose modifications to the openness ratio found in Section S-4.3, provided that: (a) mod ifications to the culvert design are reviewed and accepted by the County. In the event that the change in the design of the Grade-Separated Wildlife Crossing for the Sterling Gulch Wildlife Corridor results in material cost savings for the Owner or special district, a portion of the cost savings shall be applied to future wildlife habitat enhancement projects in northwest Douglas County. The Owner or a special district shall provide payment to the County for a portion of the cost savings to be negotiated with the County in the earlier of 4 years after January 31st, 2021 or prior to recordation of the last final plat adjacent to the Sterling Gulch Wildlife Corridor south of the Xcel Parcel.

S-5. PHASING RESTRICTIONS

No restrictions are imposed with regard to project phasing other than as expressly set forth in this Development Plan or in any development agreement between the Owner and the County.

S-6. PAYMENT OF TAXES ON LAND TO BE DEDICATED FOR PUBLIC USE

All taxes on land to be dedicated for public use shall be paid in full prior to dedication.

S-7. OTHER COMMITMENTS AND PROVISIONS

S-7.1 Regional Trail Standards .

(A) Multi-Use. The width of those Regional Multi-use Trails shown generally on the Parks, Open Space and Trails Plan shall be at least eight feet in width. Those Regional Multi-use Trails shown generally on the Parks, Open Space and Trails Plan may be hard or soft surface, shall have no more than a 2% cross slope, and shall have no more than a 5% slope (within trail) to the extent feasible and desirable given topographic conditions and considering intended trail usage.

(B) Equestrian. Those Regional Equestrian-only Trails shown generally on the Parks, Open Space and Trails Plan shall be at least four-feet in width, provided that segments of such trails may have a lesser width if necessary to accommodate steep slopes (to provide traverses, etc.), stands of trees or shrubs, rock outcroppings, water features, or other topographic, natural, design features, or site considerations or to reflect the character of such trail. Those Regional Equestrian-only Trails shown generally on the Parks, Open Space and Trails Plan shall have a natural surface, crusher-fines surface, or other surface approved by the County.

S-7.2 Architectural Control Committee .

All development within the Property (including, without limitation, publicly-owned buildings and improvements) shall be subject to CC&Rs, which will establish one or more architectural control committees that will utilize Design Guidelines in the review of development within the Property. The Design Guidelines will define specific site and building requirements such as colors, materials, landscaping and other items that will enable such architectural control committees to assure design integrity and intent. The Design Guidelines are intended to achieve a consistent quality image for the development of the Property.

S-7 .3 Lighting and Dari< Skies.

(B) Fees and Processing.

It is anticipated that, in accordance with and the goals, policies and objectives of the Douglas County Comprehensive Master Plan designed to facilitate and encourage attainable housing, the County may waive application, review, permit and inspection fees for development applications proposing attainable housing units, and the County may expedite the processing of development applications proposing attainable housing units. If the County waives such fees and expedites such applications, Owner may provide additional attainable housing units over and above that required under this Section S-7.12.

Processing Step	Processing Deadline
Completeness review by Planning Division	7 business days
Deadline for referral agencies to submit comments	20 calendar days after referral packets are mailed or electroically distributed

S-7.13 Further Development Applications.

The provisions of this Section S-7.13 are established in light of the extensive, comprehensive and detailed planning of the Property incorporated into this Development Plan, the desire to avoid the inefficiency inherent in repeating development reviews of issues which have already been addressed, and to avoid placing Douglas County at a competitive disadvantage to other jurisdictions in terms of attracting desired housing, employment, and commercial opportunities. Whether a particular land use is permitted, and whether a particular density is appropriate, shall not be raised in connection with future development approvals, except in connection with applications for Warrants and amendments to this Development Plan. Notwithstanding the foregoing, this Section S-7.13 shall not be deemed to modify any provision, process or approval criteria of the Subdivision Resolution or the Zoning Resolution, and referral agencies responsible for reviewing future development applications under the Subdivision Resolution or Zoning Resolution, as appropriate, shall have the review authority as set forth in the Subdivision Resolution or Zoning Resolution, as appropriate.

S-7.14 Signage.

To promote interesting, attractive and viable neighborhoods for residents and visitors, and to encourage unique neighborhood design and pedestrian involvement and wayfinding, building mounted signage in Planning Area D3 and special Character Zones SCZ-D, SCZ-E and SCZ-F, shall be subject to the following regulations:

(A) Size. Exterior building mounted signs shall not exceed 1,50 square feet (sum total) per 1.0 linear feet of building face. No single sign may be larger than 200 square feet.

(B) Combination and Number. For the following sign types, exterior building mounted signage may be in any combination of type and number, subject to the requirements listed herein:

(ii) Signs attached perpendicular to the wall (i.e., "blade" and "fin" signs). These shall extend no more than 30 inches from the wall surface.

(iii) Wall surface painted signs other than artistic wall murals shall be limited to 2 building faces per building.

(iv) Roof signs. These must be mounted at the parapet or eave and shall extend 28 inches or less above the parapet or eave.

(v) Awning signs.

(vi) Window signs. Any signage, whether at a window or beyond it, that is legible and understandable as signage from a distance of 10' or more, qualifies as window signage. Interior architectural elements and retail products do not qualify as window signage.

(vii) Exposed neon and LED (light emitting diode) signs shall be subject to review and approval of the Director to determine if such signs would create a public hazard. Such signs shall not be permitted if they create a public hazard such as creating a disability glare on motor vehicle traffic. Technical specifications of such proposed signage shall be provided as requested by the Director to assist in the Director's determination.

(C) Numerical Variations. Departures of up to 25% from the numerical standards set forth in this Section S-7.14 may be approved by the Director to promote interesting, attractive and viable neighborhoods for residents and visitors, and to encourage unique neighborhood design and pedestrian involvement and wayfinding.

(D) Exclusions. The restrictions set forth in this S-7.14 shall not apply to scoreboards, signage for special events, or interior signage.

S-7.15 Water.

With each Development Applicotion proposing a project within the Property the water supply for which is proposed to be nontributary groundwater underneath land within Margin B or the Central Basin (as such terms are defined in the Zoning Resolution), or at final plat if not previously provided, unless waived by the County or previously submitted, the applicant shall submit to the County the information described in Section 1810A.03 of the Zoning Resolution. STERLING RANCH PLANNED DEVELOPMENT 15TH AMENDMENT

Being a part of Sections 19, 30 and 31, part of the West half of Section 29, and the Northwest quarter of Section 32, in Township 6 South, Range 68 West; also part of the Southwest quarter and the Northeast quarter of Section 2 and part of Section 36, in Township 6 South. Range 69 West; and part of Section 6, Township 7 South, Range 68 West, all of the 6th P.M., Douglas County, Colorado - 3,995.79 Acres- 16,050 Dwelling Units

GENERAL PROVISIONS

G-1. Authority.

This Development Plan is authorized by Section 15 - Planned Development District of the Douglas County Zoning Resolution adopted pursuant to the Colorado Planned Unit Development Act of 1972, as amended.

G-2. Applicability.

The provisions of this Development Plan shall run with the land. The landowners, their successors, heirs, or assigns shall be bound by this Development Plan, as amended and approved by the Community Development Director or the Board of County Commissioners.

G-3. Adoption.

The adoption of this Development Plan shall evidence the findings and decision of the Douglas County Board of Commissioners that this Development Plan for Sterling Ranch is in general conformity with the Douglas County Comprehensive Master Plan; is authorized by the provision of Section 15 of the Douglas County Zoning Resolution; and that such Section 15 and this Development Plan comply with the Colorado Planned Unit Development Act of 1972, as amended.

G-4. Relationship to County Regulations.

The provisions of this Development Plan shall prevail and govern the development of Sterling Ranch, provided, however, that where the provisions of this Development Plan do not address a particular subject, the relevant provisions of the Douglas County Zoning Resolution, as amended, or any other applicable resolutions or regulations of Douglas County, shall be applicable.

G-5. Enforcement.

To further the mutual interest of the residents, occupants, and owners of the Planned Development and of the public in the preservation of the integrity of the Plan, the provisions of this Plan relating to the use of land and the location of common open space shall run in favor of Douglas County and shall be enforceable at law or in equity by the County without limitation on any power or regulation otherwise granted by law.

G-6. Confiict.

Where there is more than one provision within the Development Plan that covers the same subject matter, the provision which is most restrictive or imposes higher standards or requirements shall govern unless determined otherwise by the Director of Community Development.

G-7. Maximum Level of Development.

The total number of dwellings or the total commercial, business, or industrial intensity approved for development within the Planning Areas is the maximum development requested for the platting or construction. The actual number of dwellings or level of development for commercial, business or industrial properties may be less due to subdivision or site improvement plan requirements, land carrying capacity or other requirements of the Board of County Commissioners.

G-8. Project Tracking.

At the time of subdivision final plat, the applicant shall provide a summary of the development, to date, along with the final plat submittal to the Planning Division, in order to assure maximum development limits are not exceeded.

G-9. Diagrams and Illustrations.

The metrics and text set forth in Tables 1 through 18 are an integral part of this Development Plan. However, the diagrams and illustrations that accompany them are provided for information purposes only and are not regulatory, with the exception of the diagrams and illustrations set forth in Tables 5 through 20 regarding building heights, setbacks and parking placement, which are binding. To the extent of any conflict between any text (including a metric contained in text) and a diagram or illustration (including a metric shown on a diagram or illustration), the text shall control.

G-10. Intent.

The intent of this Development Plan is to enable and encourage the implementation of the following policies: (a) that neighborhoods should generally be compact, pedestrian oriented, and mixed-use to the extent permitted by Table 2, (b) that ordinary activities of daily living should occur within walking distance of most dwellings, allowing independence to those who do not drive, (c) that interconnected networks of Thoroughfares should be designed to disperse traffic and reduce the length of automobile trips, (d) shared-use of parking facilities should be encouraged, (e) that within most neighborhoods a range of housing types should be provided, (f) that appropriate land uses should be provided within walking distance of transit stops, and (g) that a range of open space areas, including Regional Parks, Neighborhood Parks, Greens, Squares and Plazas, should be distributed within the Property. The provisions of this Section G-10 shall not be deemed regulatory or binding, but may be used for purposes of granting Warrants in accordance with Section G-11.

G-11. Warrants.

(A) General.

For purposes of this Development Plan, a "Warrant" is a rule that would permit a practice that is not consistent with a specific provision of this Development Plan but is consistent with the intent provisons of Section G-10 and complies with the Zoning Resolution and the Subdivision Resolution. Requests for Warrants shall be approved or disapproved by the Director. Any request for a Warrant shall be approved or disapproved by the Director within 30 days after the Director's receipt of written request therefor. A request for a Warrant with respect to any provision of this Development Plan shall not open up for review any other provision of this Development Plan.

(B) Exclusions.

Notwithstanding the foregoing, requests to: (1) decrease a setback required by this Development Plan, (2) decrease a minimum lot size required by this Development Plan, (3) increase a maximum building height established by this Development Plan, (4) increase the number of Dwelling Units permitted within any Character Zone, Planning Area or the Property other than as permitted by this Development Plan, or (5) alter the boundary of a Planning Area other than as permitted by this Development Plan, may not be approved by Warrant. However, this Section G-11 sllall not be deemed to prohibit administrative amendments, major amendments or other amendments to this Development Plan, or the granting of variances or other relief provided pursuant to the provisions of the Zoning Resolution, the Subdivision Resolution, or the County's other ordinances, resolutions and policies.

G-12. Interpretation.

When used in this Development Plan, the term "shall" indicates a mandatory provision and each of the terms "should" and "may" indicates a permissive provision that is not mandatory.

G-13. References.

(A) Sections.

Unless otherwise specified, any reference in this Development Plan to a "Section" shall mean a section of this Development Plan. For convenience, references contained in this Development Plan to sections of this Development Plan also include a prefacing letter, either "G", "S" or "D" to indicate whether such Section is within the General Provisions portion of this Development Plan (G), the Statement of Commitments portion of this Development Plan (S), or the Development Standards Section of this Development Plan (D).

For so long as this Development Plan remains in effect with respect to the Property, pursuant to and subject to the terms of this Development Plan, the following conditions shall be satisfied in connection with development of the Property.

S-1. DEDICATIONS

Subject to the conditions set forth in this Development Plan, the following dedications and offers of dedications of land shall be made (with all water rights retained by the Owners) to fulfill concurrency and subdivision requirements in connection with the development of the Property:

S-1.1 Parks, Open Space and Regional Trails.

All parks, open space and trails dedicated and accepted pursuant to this Section S-1.1 shall remain open to public use, subject to the provisions of this Section S-1.1 and subject to seasonal closures and other rules and regulations acceptable to the entity to which such dedication is made and accepted.

(A) Regional Parks.

(i) General. Subject to the conditions set forth in this Development Plan, Owner shall dedicate, in phases as required to satisfy the Parks Requirement or as otherwise required by Commitments Matrix, portions of the land depicted generally on the Parks, Open Space and Trails Plan as Burns Regional Park, Sterling Gulch Regional Park, and Heritage Regional Park. Each such dedication shall be made to a special district or another government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. Notwithstanding the foregoing, each portion of the Regional Parks dedicated in accordance with this Section S-1.1 (A) shall provide a functional addition to the Regional Park and shall be dedicated in a manner and in amounts that allow for functional and cohesive Regional Parks. Contemporaneously with the first dedication of any portion of any Regional Park, Owner shall provide the County with a plan depicting planned improvements for such portion of such Regional Park and improvements that may be constructed within future phases (future dedications) of such Regional Park. Such plan shall not be binding in any manner, but shall show how the entirety of such Regional Park could be developed. After such dedication of any land for a Regional Park, such land shall be owned and maintained by the entity to which the dedication was made and by which such dedication was accepted.

(ii) Sterling Gulch Regional Park and the Reservoir Easement. Contemporaneously with the dedication of any portion of Sterling Gulch Regional Park pursuant to Section S-1.1 (A)(i), Owner may reserve from such dedication the right to have all or any portion of such land, as identified by Owner, reconveyed to Owner at Owner's election at any time prior to December 31, 2035, on the condition that simultaneously with such reconveyance to Owner such reconveyed land is subjected to the Reservoir Easement.

(iii) Public Access Regional Parks dedicated by Owner shall permit public access to and use of the area dedicated in perpetuity, subject to seasonal closures and other rules and regulations acceptable to the entity to which such dedication is made and accepted.

(B) Reservoir Easement.

Owner may designate portions of the Property within or near Sterling Gulch Regional Park as part of the Sterling Gulch Reservoir. Subject to the conditions set forth in this Development Plan, Owner may subject portions of such land to the Reservoir Easement in phases as required to satisfy the Parks Requirement or as otherwise required by Commitments Matrix. If the Reservoir Easement is granted, it shall be granted to a special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. If the Reservoir Easement is granted, it shall grant public access to and use of Sterling Gulch Reservoir for purposes of recreational activities that do not involve human body contact with reservoir water. Such permitted uses include fishing from the shore and from piers, non-motorized boating, wildlife observation, and such other uses as Owner and the County may agree. If the Reservoir Easement is granted, it shall either: (i) require that a majority of the land subject to the Reservoir Easement maintain a water depth of at least ten feet at all times except in case of exigent need to address water supply needs, and that access to the water's edge be provided, and/or (ii) other provisions be made for active or specialized recreation within the area burdened by the Reservoir Easement. If the Reservoir Easement is granted, the use of Sterling Gulch Reservoir by the public shall be subject to: (a) seasonal closures, (b) the Owner's right to use such property for water storage (including the installation, construction, use, operation, maintenance, repair and replacement of pipes, structures, facilities and other improvements related thereto), (c) the Owner's right to use such property for any use that does not unreasonably interfere with the uses set forth in the Reservoir Easement, and (d) other rules and regulations acceptable to Owner and the County. Owner may convey or otherwise transfer any or all of its fee interest in Sterling Gulch Reservoir, and may assign or otherwise transfer any or all of its rights with respect to the Sterling Gulch Reservoir (including without limitation, mineral, oil and gas interests and access rights) to a special district or any other person or entity.

(C) Open Preserve (O1).

Subject to the conditions set forth in this Development Plan, Owner shall dedicate, in phases as required by the Commitments Matrix, the land depicted generally on the Parks, Open Space and Trails Plan as "O1". Each such dedication shall be made to a homeowners' association, special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. After such dedication of any portion of O1 land, such land shall be owned and maintained by the entity to which the dedication was made and by which such dedication was accepted. Uses on such dedicated land shall be restricted as set forth in Table 2.

(D) Multi-function Open Space (C1).

Subject to the conditions set forth in this Development Plan, Owner shall dedicate, in phases as required to satisfy the Parks Requirement (as more particularly set forth in the Commitments Matrix), portions of the land depicted generally on the Parks, Open Space and Trails Plan as "C1". Each such dedication shall be made to a homeowners' association, special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. After such dedication of any portion of C1 land, such land shall thereafter be owned and maintained by the entity to which the dedication was made and by which such dedication was accepted. Uses on such dedicated land shall be restricted as set forth in Table 2.

(E) Other Parks.

Subject to the conditions set forth in this Development Plan, Owner shall dedicate. in phases as required to satisfy the Parks Requirement (as more particularly set forth in the Commitments Matrix), Other Parks (as described in Table 4), Each such dedication shall be made to a homeowners' association, special district or other government entity as designated by the Owner: provided, however, that Owner may not so designate the County unless the County agrees. After dedication of any land pursuant to this Section S-1.1 (E), such land shall be owned and maintained by the entity to which such dedication was made and by which such dedication was accepted. Uses on such dedicated land shall be restricted as set forth in Table 2. Other Parks shall be distributed roughly evenly throughout the developed portions of the Property, based on need.

(F) Form of Dedication.

Notwithstanding any other provision of this Development Plan, dedications of any portion of the Regional Parks, Open Preserve (Planning Area O1), Multi-function Open Space (Character Zone C1) and Other Parks, may be by deed, by plat or by other mechanism acceptable to the Owner making such dedication, and the entity to which such dedication is made, including, without limitation, by conservation easement.

(G) Regional Trails.

(i) Within the Property. Certain Regional Trails are depicted generally on the Parks, Open Space and Trails Plan. Final alignments for each segment of such Regional Trails shall be established at the time of Final Plan therefore, to the extent public access is not already provided, and may vary from the depiction thereof shown on the Parks, Open Space and Trails Plan or on any Neighborhood Plan, on the condition that (a) all such Final Plats and the Regional Trail alignments thereon comply with the requirements of the Subdivision Resolution, (b) Regional Trail connectivity within the Property is not materially decreased from that depicted generally on the Parks, Open Space and Trails Plan, (c) connectivity between the Regional Trails (on the Property) and regional trails outside the Property is not materially decreased from that depicted generally on the Parks, Open Space and Trails Plan. and (d) Regional Multi-use Trails depicted generally on the Parks, Open Space and Trails Plan shall be located so as to cross roadways at intersections (except where grade-separated crossings are contemplated). Trails permitted within the Willow Creek Wildlife Corridor shall be limited to: (1) the one Regional Multi-use Trail depicted generally on the Parks, Open Space and Trails Plan and (2) Regional Trails and other trails within the area generally forming the outer edges of the Willow Creek Wildlife Corridor.

(ii) Outside the Property. Segments of Regional Trails may be located outside the Property, including without limitation within the Exception Parcels, on the condition that, to the extent public access is not already provided, the relevant owner of such adjacent parcel consents thereto and grants easements or other rights for such trail segments to a special district or other governmental entity designated by the Owner in accordance with the requirements of Section-1.1 (G)(iii) or Section S-1.1 (G) (v), as appropriate; provided, however, that Owner may not so designate the County unless the County agrees.

(iii) Dedication. To the extent public access is not already provided, Owner shall dedicate easements for those Regional Trails within the Property shown generally on the Parks, Open Space and Trails Plan. Owner may dedicate easements for Regional Trails other than those shown generally on the Parks, Open Space and Trails Plan, Each such dedication shall be made to a special district or other government entity as designated by the Owner; provided, however, that Owner may not so designate the County unless the County agrees. Notwithstanding any provision herein, Owner shall not be required to obtain dedicated easements for any segment of Regional Trails located outside of the Property.

(iv) Ownership and Maintenance. After dedication of any easement for Regional Trails pursuant to Section S-1.1 (G)(iii), all Regional Trails within such easement shall be owned and maintained by the entity to which such dedication is made and by which such dedication is accepted.

(v) Use.

(a) Multi-use Trails. Each easement for a Regional Multi-use Trail shown generally on the Parks, Open Space and Trails Plan shall permit public access to and use of the area subjected thereto for purposes of pedestrian, non-motorized vehicular transportation, and motorized vehicular transportation to the extent required by the Americans with Disabilities Act, 42 U.S.C. § 12101 et. seq., subject to seasonal closures and other rules and regulations acceptable to the entity to which such easement is dedicated and by which such dedication is accepted.

(H) Plum Valley Heights Trail Connection. Pursuant to the schedule set forth in the Commitments Matrix, Owner shall grant an easement to the Plum Valley Heights Homeowners Association for an equestrian-only trail connecting the Plum Valley Heights neighborhood to the Regional Equestrian-only Trail system within the Property.

S-1.2 Schools.

(A) Dedication.

(i) School Site Dedication. Owner will dedicate a total of 130 net useable acres of land for public School Sites within the Sterling Ranch PD, which land will be delivered in compliance with the Douglas County Subdivision Resolution (DCSR) development standards. These dedications are expected to include: 1) 12.4 acres in Filing 1 for Elementary School 51; 2) 26.0 acres for the CSI Chartered John Adams Academy; 3) Preliminary Plan 7 public School Site; and 4) one future 80-acre middle/high school combined public School Site. If the number of residential units is increased beyond 12,050 residential units for the Sterling Ranch PD, Owner will review school land dedications with the Douglas County School District (School District) who may request additional acreage upon any Preliminary Plan application to accommodate such additional residential units as needed. The School District reserves the right to request additional acreage relating to any future PD Amendment that has the potential to impact School Site need or location.

Except as otherwise described below, all School Site dedications shall be to Douglas County (County) and shall be subject to the right of first refusal and other provisions provided in C.R.S. § 30-28-133(4)(a)(ii).

(ii) Future Land Use Conferrals and Approvals. Owner shall Confer (defined below) with the School District once during Preliminary Plan or substitute preliminary subdivision process for any development application (the "Preliminary Plan Application") that contains a School Site. Such "Conferral" shall provide the School District a minimum 60-day review period prior to any public hearing on the Preliminary Plan Application after Owner provides the School District with all site information included in the Preliminary Plan Application in compliance with Section 403 of the DCSR. Such Conferral shall include School District access to the proposed School Site to conduct site due diligence under reasonable and customary terms for such access.

(iii) School Site Relocation. If Owner seeks to relocate either of the School Sites from the general locations depicted on Sheet 10, "Plan Detail A" or Sheet 11, "Plan Detail B" of this 13th Amendment, such relocated School Site shall include the same net useable acres identified above, and the Owner shall Confer (as described above) with the School District as part of any application to the County relating to such relocation. If, after Conferral, the School District and Owner are unable to agree upon a relocation, Owner may proceed with an application to relocate the School Site and the School District may object to such relocation as a referral agency. If the County approves a relocation of a School Site over the School District's objection, the School District may request "Cash-in-Lieu" for the School Site, which Cash-in-Lieu amount shall be calculated as outlined below.

(iv) Funding and Final Platting. When the School District identifies an "Anticipated Need" (defined below) for construction of a new school on a School Site, it shall provide notice to Owner.

The School District will be deemed to have identified an "Anticipated Need" when:

a. Student enrollment of the neighborhood school(s) located in the attendance area or feeder that the Sterling Ranch PD is also located in is forecasted to exceed the ideal program capacity of the aforementioned neighborhood school(s) within the next five years; and

b. Inclusion of a recommendation to construct a new school in the Sterling Ranch PD in the School District's Master Capital Plan.

Upon the School District identifying the Anticipated Need, the School District will have no more than five years to obtain and dedicate funding to build a new school on the School Site, in which case Owner will proceed to final plat and convey the site to the County.

If the School District has not obtained funding to build a new school within such five-year period, the School District will issue a request for proposals to interested charter schools to locate on the proposed site and serve residents of the Sterling Ranch PD. Upon the School District's Board of Education approval of a selected charter, Sterling Ranch will proceed to final plat and convey the site to the County.

If the School District does not approve a charter for a School Site within two years of issuing the initial request for proposals, Owner will pay "Cash in Lieu" for the School Site as outlined below. In this instance, the School District will have no further rights to such School Site, and the total acreage of the School Site will be deducted from the total acreage dedication requirement. Owner shall pay "Cash-in-Lieu" for such School Site even if it is earlier than the 60% Buildout threshold set forth below in Section B.

(B) Cash-in-lieu.

Owner agrees not to seek "Cash-in-Lieu" relating to any School Site if the School District has identified an "Anticipated Need" for such School Site or until at least 60% Buildout (defined below) unless (1) earlier requested by DCSD as part of the relocation described above in Section A(iii) or (2) except as otherwise permitted under Section A(iv). Owner agrees to provide the School District with written notice within 30 days of approximately 50% Buildout. Such written notice shall be delivered by U.S. mail and email to the Superintendent with copy to the Chief Operations Officer and General Counsel of the School District

The amount of any "Cash-in-Lieu" payment shall be equivalent to the fair market value of the acreage required for school land dedication. Value shall be determined according to the DCSR. If Owner and the School District are unable to agree upon any Cash-in-Lieu payment, either party may submit a proposal for the Cash-in-Lieu fee to the County and supply the information necessary for the Board of County Commissioners to evaluate the adequacy of the proposal. This information may include at least one appraisal of the property by a qualified appraiser.

"Buildout" shall be measured based on the cumulative number of building permit-eligible platted residential lots plus the number of multifamily units included in any final Site Improvement Plan or, if no Site Improvement Plan is required, the applicable Minor Development Plan within the Sterling Ranch PD.

(C) Capital Mitigation.

(i) Amount. Owner shall provide $1,500 for each SFDU that is not an AHU, at or prior to the Recording of Final Plat thereof, and $750 for each MFDU that is not an AHU, as a condition of Site Improvement Plan approval thereof, in both cases to be used solely for the School District capital improvements within the Property. All funds provided to the School District pursuant to this Section S-1.2(C) may be used within the current high school feeder area for students generated from the Property until such time as there is enough student population generated from the Property and funding available to build a complete high school feeder within the Property. After such time as there is enough student population generated from the Property and funding available to build a complete high school feeder within the Property, Owner shall not be required to make further payments under this Section S-1.2(C) in respect of any Final Plat or Site Improvement Plan if as of the date Owner desires to Record such Final Plat, or the date of the County's approval of such Site Improvment Plan, as appropriate, the School District has failed to execute and deliver to Owner written commitments restricting the use of such funds to capital improvements within Sterling Ranch, in form and substance reasonably acceptable to Lead Owner.

(ii) In-Kind. Amounts due under this Section S-1.2(C) shall be reduced by the value of any in-kind contributions from Owner to the School District as may be acceptable to Owner and the School District.

(D) Extent.

No dedication, cash-in-lieu thereof, or capital mitigation for schools other than as expressly set forth in this Development Plan shall be required in connection with the subdivision or development of the Property.

(E) Alternate Mechanisms.

Alternate mechanisms of the development and provision of school facilities (including, without limitation, land ownership) may be employed in place of the dedication, cash-in-lieu and/or capital mitigation requirements of Sections S-1.2(A)-(C) if adequate school facilities are provided to accommodate the need created by Sterling Ranch in accordance with County regulations if such alternate mechanisms are acceptable to Lead Owner, the School District and the County.

S-1.3 Thoroughfares.

(A) Alignments.

Alignments for the Primary Thoroughfares are depicted generally on the Thoroughfare Plan. The exact alignments of Primary Thoroughfares shall be determined by Owner at the time of Final Plat thereof and may vary from the depictions set forth on the Thoroughfare Plan or any Neighborhood Plan without the need to amend this Planned Development or any Neighborhood Plan, on the condition that: (1) all plats of such Primary Thoroughfares are approved by the County in accordance with the Subdivision Resolution, (2) such alignments conform to, and are provided at such times as are required by, all other applicable County standards, including without limitation the County's street concurrency requirements set forth in Appendix A of the Zoning Resolution and the Douglas County Roadway Design and Construction Standards, as the same may be modified by any alternate roadway design standards approved by the County, and (3) the overall connectivity and functionality of such Primary Thoroughfares as depicted on the Thoroughfare Plan are maintained.

(B) Public and Private.

The Primary Thoroughfares will be public thoroughfares offered for dedication to the County at Final Plat. The determination of whether Thoroughfares within the Property other than the Primary Thoroughfares will be public or private will be determined by Owner and the County, with all of such Thoroughfares that will be public being offered for dedication at Final Plat thereof, at no cost to the County.

(C) Additional Dedications for Titan Road .

At the County's request and at no cost to the County, Owner shall dedicate those portions of the Property located along the southern edge of the Titan Road Additional Dedication Segment as needed to accommodate the southern half of a six-lane roadway along the Titan Road Additional Dedication Segment, assuming that such six-lane roadway is centered on the current centerline for the Titan Road Additional Dedication Segment. Notwithstanding the foregoing, Owner shall not be required to dedicate any property pursuant to this Section S-1.3(C) to provide right-of-way along any segment ofTitan Road to the extent right-of-way for a six-lane road along such segment of Titan Road has already been provided at the time of the County's request pursuant to this Section S-1.3 (C).

S-1.4 Fire.

(A) Fire Station.

Owner shall offer for dedication to the Fire District a fire station site, with the specific size and location thereof to be determined by Owner, the County and the Fire District. The dedication of such site shall be subject to: (i) a covenant containing the right of first refusal provided in this Section S-1.4(A), and (ii) such other terms and conditions acceptable to both Owner and the Fire District. The dedication of such site shall occur at a time acceptable to the Fire District. Before the Fire District may sell, transfer or convey any land dedicated to the Fire District pursuant to this Section S-1.4(A), the Fire District shall deliver written notice to Lead Owner of its intention to sell, transfer or convey such land. Lead Owner shall then have 60 days to provide written notice to the Fire District of Lead Owner's interest in purchasing all or any portion of such land. If Lead Owner timely delivers to the Fire District a written notice of Lead Owner's interest in purchasing all or any portion of such land, then the Fire District shall not be permitted to sell any portion of such land for the period ending 60 days after the Fire District's receipt of such notice. The purchase of such land by Lead Owner shall be upon such terms and conditions and for such consideration as Lead Owner and the Fire District may mutually agree; however, in no event shall the purchase price exceed the fair market value of such land at the time it was dedicated to the Fire District. With respect to any land dedicated to the Fire District pursuant to this Section S-1.4(A), the right of first refusal negotiation provided in this Section S-1.4(A) shall expire 20 years after the date such land was dedicated to the Fire District.

(B) Fire Protection Systems.

All fire protection systems serving the Property shall be designed to meet the requirements of the Fire District and the County, including without limitation, fire codes adopted by the County, and those requirements set forth in Section 3(b)(i)(a)-(f) of Appendix A of Section 15 of the Zoning Resolution.

(C) Fire Protection Submittals to the Fire District.

All engineering documents submitted to the Fire District shall bear the wet signature and seal of the engineer or architect in responsible charge of the design unless the Fire District indicates it does not require the same.

(D) Fire Protection Improvements Installed.

Water distribution and site access components necessary for fire protection of any structure under construction (in accordance with Fire District standards) shall be installed and in service prior to the construction of such structure, except by special permit issued by the Fire District.

S-1.5 Electric and Gas Sites and Facilities.

In connection with platting any portion of the Property, Owner shall provide sites for electric substations, gas and electric transmission line easements, and gas regulator/meter station sites as needed to serve the development proposed by such plat.

S-1.6 Owners' Reserved Rights.

(A) General.

With respect to all offers of dedications and dedications provided in this Development Plan or otherwise, but excluding dedications and offers of dedications for public rights-of-way, the Owners shall be deemed to have reserved for themselves, their successors and assigns, and for the benefit of any special districts, utility providers or other persons or entities as may be designated by the dedicating Owner(s), easements and rights to construct, install, use, operate, maintain, repair and replace (on such dedicated lands) Utility-Minor Facilities, Utility Service Facilities, Thoroughfares, trails, other infrastructure and improvements related thereto. S-2. ON-SITE OR OFF-SITE IMPROVEMENTS

S-2.1 Provision of Major Infrastructure.

It is anticipated that one or more special districts will be formed to facilitate the design, construction and financing of on-site and off-site infrastructure necessary for the development of the Property. These facilities may be constructed directly by the special districts or, at Owner's option , may be constructed by Owner and acquired by the special districts. Infrastructure elements that may be facilitated by such special districts include, without limitation, roads and interchange improvements, water and sewer facilities, fire protection, drainage facilities (including without limitation, detenuon and retention facilities), mosquito control, landscaping, park improvements and trails. Notwithstanding any provision in this Development Plan, each obligation of Owner to design, construct or install improvements as set forth in this Development Plan, may be performed by, and/or financed (in whole or in part) by one or more special districts

S-2.2 Regional Park Improvements.

The Owner and Special District will work to identify future regional park amenities. In recognition that recreational needs change over time and to allow the ability to respond to such changing needs, the Owner and Special District may substitute improvements set forth in Table S-2.2 below to accommodate the recreational needs of Douglas County residents and Sterling Ranch residents.

Table S-2.2

	Improvement	Improvement Value
Burns Regional Park	Four Multi-purpose play fields (turf)	$1,000,000
	Turf amphitheater & small band shell	$500,000
	Picnic shelters, Picnic tables	$106,000

S-2.3 Other Park Improvements.

In connection with the dedication of any Other Park, Owner (or one or more special districts Formed for the Property) may provide Recreational Improvements within such Other Park in accordance with the provisions of the Commitments Matrix.

S-2.4 Water and Sewer Facilities.

Except to the extent set forth in Note H of Table 2 regarding certain improvements as specified in such Note H, all lots within this Property will be served by central water and wastewater systems. Central water and wastewater facilities shall be provided in a manner consistent with the Water Appeal. If, in respect of any sketch plan, minor development final plat or site improvement plan, the water service for improvements proposed therein is proposed to be provided by a New Special District (as defined in Section 18A of the Zoning Resolution) to be created, then evidence pertaining to the creation of such New Special District and execution of all intergovernmental agreements, if any, necessary to provide such service shall be provided to the County contemporaneously with or prior to submittal of such sketch plan, minor development final plat or site improvement plan. The provisions of this Section S-2.4 shall not be deemed to modify, and shall be subject to the provisions of the Subdivision Resolution.

S-2.5 Roadway Improvements.

(A) Within the Property.

(i) General. Thoroughfares within the Property shall be provided by Owner or one or more special districts Formed for the Property (unless such Thoroughfares already exist and conform to County standards as the same may be modified by any alternate roadway design sta ndards approved by the County) as needed to serve development of the Property at such times as requested by the County in accordance with County requirements, as modified by any alternate roadway design standards approved by the County. The following road segments shall be deemed "Thoroughfares within the Property" for purposes of this Section S-2.5, and accordingly, shall be Owner's responsibility to provide, subject to the provisions of this Section S-2.5, provided, however, Owner shall not be required to provide auxiliary lanes along the following roads segments that are needed for access for development (including redevelopment) outside the Property:

a) Titan Road from Roxborough Park Road to the western boundary of the Xcel Parcel where the Xcel Parcel meets Titan Road (as shown on the Thoroughfare Plan),

b) Roxborough Park Road from Titan Road to the most northerly point where the Property is contiguous with Roxborough Park Road (as shown on the Thoroughfare Plan),

c) the segment of Rampart Range Road that is contiguous with the Property (as shown on the Thoroughfare Plan), and

d) the segment of Moore Road between Titan Road and the most southerly point where the Property is contiguous with Moore Road.

(ii) Road Standards. All Thoroughfares within the Property shall be designed and constructed, at no cost to the County, in accordance with all applicable County standards, as the same may be modified by any alternate roadway design standards approved by the County.

(B) Traffic Impact Studies.

To the extent requested by the County, each Traffic-generating Application shall include a traffic impact analysis developed in accordance with the Douglas County Roadway Design and Construction Standards.

(C) Outside the Property But Within the Concurrency Area.

Please refer to the *Sterling Ranch Infrastructure Agreement Concerning the Construction of Roadway Improvements for the Titan Road and Waterton Road Concurrency Segments.* This agreement was implemented to clarify certain roadway commitments as described in the Sterling Ranch Planned Development.

(i) Titan Road Concurrency. If, at the time a Traffic-generating Application is submitted to the County, then-existing traffic volumes plus the traffic volumes projected to be generated by the development proposed by such Traffic-generating Application would cause the Titan Concurrency Segment to fall below the County's Road Concurrency Standard, then the County may condition the approval of such Traffic-generating Application upon a requirement that no building permits for traffic-generating improvements proposed by such Traffic-generating Application shall be issued, or, in respect of traffic-generating improvements that do not require a building permit, a requirement that such improvements may not operate in a manner that will generate material traffic, as appropriate. until there is deemed provided either the improvements set forth in Section S-2.5(C) (i)(a) or Section 2.5(C) (i)(b), as selected by the Owner submitting such Traffic-generating Application:

(a) the combination of: (7) through lanes within the Titan Concurrency Segment as then-needed to bring the Titan Concurrency Segment to at least the County's Road Concurrency Standard, however, collectively, all such Owners shall not be required to provide more than six through lanes therein, and (2) improvements to the following intersections/ interchanges as then-needed to bring the Titan Concurrency Segment to at least the County's Road Concurrency Standard: (A) Titan Road and Highway 85, including highway ramps, (B) Titan Road and Titan Park Circle, and (C) Titan Road and Wildlife Way, plus improvements to other roads as needed to meet the County's Road Concurrency Standard, or (b) such other improvements as are then-necessary to bring the Titan Concurrency Segment to at least the County's Road Concurrency Standard, which other improvements may include construction of Southern Connector Improvements if acceptable to such Owner and the County.

(ii) Waterton Road Concurrency. If, at the time a Traffic-generating Application is submitted to the County, then-existing traffic volumes plus the traffic volumes projected to be generated by the development proposed by such Traffic-generating Application would cause the Waterton Concurrency Section to fall below the County's Road Concurrency Standard, then the County may condition the approval of such Traffic-generating Application upon a requirement that no building permits for traffic-generating improvements proposed by such Traffic-generating Application shall be issued, or, in respect of traffic-generating improvements that do not require a building permit, a requirement that such improvements are not allowed to operate in a manner that will generate material traffic, as appropriate, until there is deemed provided either the improvements set forth in Section S-2.5(C)(ii)(a) or Section 2.5(C)(ii) (b), as selected by the Owner submitting such Traffic-generating Application:

(a) the combination of: (1) through lanes within the Waterton Concurrency Segment as then-needed to bring the Waterton Concurrency Segment to at least the County's Road Concurrency Standard, however, collectively, all such Owners shall not be required to provide more than four through lanes therein, and (2) the following improvements as then-needed to bring the Waterton Concurrency Segment to at least the County's Road Concurrency Standard: (A) a bridge over the Highline Canal as it intersects with the Waterton Concurrency Segment, however, collectively, all such Owners shall not be required to provide more than four lanes within such bridge, (B) a bridge over the South Platte River as it intersects the Waterton Concurrency Segment, however collectively, all such Owners shall not be required to provide more than four lanes within such bridge, and (C) improvements to the intersections of Waterton Road and the following streets and accessways: (A) Dante Drive, (B) Campfire St., (C) Liverpool Circle/Hunters Hill Lane, (D) the access driveway located between Lot 118 and Lot 177E according to the Chatfield Farms Plat, (E) the access driveway located on Lot 117E of the Chatfield Farms Plat. and (F) Rampart Range Road, or

(b) such other improvements as are necessary to bring the Waterton Concurrency Segment to at least the County's Road Concurrency Standard, which other improvements may include construction of Southern Connector Improvements if acceptable to such applicant and the County.

(iii) Road Design to Accommodate Lawrence Commercial Traffic. All improvements to North Moore Road affecting the access to/egress from North Moore Road and Lawrence Construction Company located on the Lawrence Parcel shall be designed in accordance with County standards; however to the extent accepta ble to the County, Owner shall also design such improvements to accommodate turning movements for girders and other long bridge components traditionally hauled by Lawrence Construction Company. Similarly, all improvements to the intersection of North Moore Road and West Titan Road shall be designed in accordance with County standards; however to the extent acceptable to the County. Owner shall also design such improvements to accommodate a turning radius so as to not restrict a right turn from northbound North Moore Road onto West Titan Road by commercial vehicles traditiona lly used by Lawrence Construction Company.

(iv) Provided. As set forth in the County's concurrency regulations contained with the zoning Resolution as of February 9, 2009 (the date the application for the Development Plan was submitted to the County for approval) , for purposes of this Section S-2.5(C), improvements shall be deemed provided in respect of any proposed residential development if (a) such improvements are under construction and will be available at the time the impacts from such proposed residential development will occur, (b) such improvements are guaranteed by an enforceable development agreement, subdivision improvement agreement or other agreement that ensures such improvements will be availa ble at the time the impacts from such proposed residentia l development will occur, (c) such improvements are Planned Capital Improvements (as such term is defined in the Zoning Resolution), or (d) such other provision as may be acceptable to the County is made for ensuring such improvements will be available at the time the impacts from such proposed residential development will occur.

(v) Road Standards. Road improvements to be provided pursuant to this Section S-2.5(C) shall be designed and constructed in accordance with all applicable County standards, as the same may be modified by any alternate roadway design standards approved by the County.

(D) State Highways .

(i) System Level Study.

(a)Upon request of the Cou nty, Lead Owner shall pay to the County an amount not to exceed $100,000.00 as its contribution for use by the County, working in conjunction with CDOT and Jefferson County, and other appropriate entities, to develop and secure an approval of findings of a system level study (the "SLS") associated with the 1601 process by the CDOT Transportation Commission or designated approval authority (the "Commission ") , if required by COOT, as generally described in this Section S-2.5 (D) , unless the County and Lead Owner agree otherwise. Such payment shall be made within 30 days of written request from the County.

(b) The SLS shall: (1) analyze traffic on the State Highway Segments projected to be generated from development as of the projected build-out of the Property, (2) determine the improvements to the State Highway Segments that are needed to accommodate such traffic projections, (3) set forth projected costs for such improvements, and (4) set forth the total amount of Lead Owner's obligation to pay its pro rata share of the costs to construct such improvements to the 85 Segment and to the 121 Segment, as calculated in accordance with the provisions of Section S-2.5(D)(ii)(a).

(c) The County reserves the right to expand the SLS to the extent necessary to secure Commission approval of the SLS; provided, however that in no case shall Lead Owner be required to pay more than $100,000 toward the cost of the SLS.

(d)The SLS shall be performed by a traffic engineer mutually-acceptable to the County and Lead Owner.

(e)If the Owner desires to advance the processing of final plats prior to Commission approval of the SLS, the pro rata share payments as described and limited in Section S-2.5(D) (ii) (a) related to applications for final plats may be deferred to a date no later than 60 days after the approval of the SLS by the Commission unless the County and Lead Owner agree otherwise. In no case shall the Owner be allowed to defer pro rata share payments related to applications for final plats beyond an aggregate of 1,000 platted lots unless the County and Lead Owner agree otherwise. The pro rata share payments as described and limited in Section S-2.5(D)(ii)(a) related to applications for use by special review, site improvement plan and location and extent may be deferred to a date no later than 60 days after Commission approval of the SLS unless the County and Lead Owner agree otherwise. Notwithstanding the foregoing, if the County expands the scope of the SLS beyond that described above, then the pro rata share payments as described and limited in Section S-2.5 (D) (ii) (a) related to applications for final plats, use by special review, site improvement plan and location and extent may be deferred to a date no later than 60 days after Commission approval of such expanded SLS unless the County and Lead Owner agree otherwise.

(ii) Improvements . Traffic (including future traffic) not generated by development on the Property as well as traffic generated by development on the Property will contribute to the total traffic on the State Highway Segments. Owner desires to be part of a regional solution to provide improvements to the State Highway Segments as needed to accommodate traffic thereon. Accordingly, Owner is willing to make the commitments set forth in this Section S-2.5(D)(ii) .

(a) Owner shall pay its pro rata share of the costs to construct those improvements to the 85 Segment and the 121 Segment, as such costs are determined by the SLS, and as such improvements are deemed necessary pursuant to the SLS to accommodate projected traffic thereon through 2035. Owner's pro rata share of such costs shall be calculated based on the proportionate amount of traffic on each of the 85 Segment and the 121 Segment (considered separately) projected to be generated from development on the Property as of the projected build-out of the Property as determined by the SLS versus the amount of traffic on the 85 Segment or the 121 Segment, as appropriate, projected to be generated by sources other than development on the Property as of the projected build-out of the Property as determined by the SLS. Payments to satisfy Owner's pro rata share obligation under this Section S-2.5(D) (ii)(a) shall be due incrementally as development occurs on the Property as follows: Each of: (1) the Recording of any final plat proposing traffic-generating improvements on the Property submitted to the County by Owner, and (2) the County's approval of any application for use by special review or site development plan proposing traffic-generating improvements on unplatted portions of the Property submitted to the County by Owner, shall be conditioned upon Owner paying to the County the amount equal to the total amount of Owner's pro rata share obligation under this Section S-2.5(D) (ii) (a) for each of the 85 Segment and the 121 Segment, multiplied by the CPI Adjustment Factor therefore, and then multiplied by a fraction, the numerator of which is the traffic expected to be generated from the improvements on the Property then-being proposed by such final plat, use by special review or site development plan, and the denominator of which is the total traffic expected to be generated from development on the Property. Owner shall not be required to pay any amount due under this Section S-2.5(D) (ii) (a) in respect of any improvements more than once.

(b) Owner shall cooperate in, and encourage the formation of, a regional transportation authority or other vehicle to provide funding for the construction of improvements to the C-470 Segment as deemed necessary pursuant to the SLS to accommodate projected traffic thereon through 2035. Owner shall participate in such regional transportation district or other funding vehicle in the same manner as other participating land owners.

(iii) CDOT Approval. Modifications to intersections at state highways shall be subject to CDOT review and approval.

S-2.6 Trails.

The Regional Trails shown generally on the Parks, Open Space and Trails Plan shall be designed and constructed by Owner, or one or more special districts formed for the Property , in accordance with the standards set forth in Section S-7.1 . Segments of such Regional Trails shall be constructed no later than the time set forth therefor in the Commitments Matrix. Notwithstanding any provision herein, Owner shall not be required to construct any segment of Regional Trails located outside of the Property. Owner shall design and construct the equestrian trail described in S-1.1 (H) no later than the time set forth therefore in the Commitments Matrix.

S-3. OVERALL PARKS COMMITMENT

(d) the number of Regional Trail Acres for which easements are dedicated in accordance with Section S-1.1 (G)(iii) or which are otherwise provided pursuant to the terms of this Development Plan (e.g ., portions of Regional Trails within dedicated rights-of-way, easements located within the Xcel Parcel or the Denver Water Parcel. etc.).

(e) the number of acres of Parks Maintenance Facility Land provided within the Property to the extent the maintenance, storage, service and/or administration facilities thereon support Regional Parks, Regional Trails, Other Recreational Park, or other improvements providing active or specialized recreations, and

(f) 25% of the number of acres of any other portion of the Property upon which Recreational Facilities that are available to the general public, or members of a homeowners association, club or other entity are constructed.

(iii) Recreational Facilities .

(a) General. Owner shall receive credit towards satisfying the Parks Requirement for the number of acres equal to: (1) 100% of the cost of designing, constructing and installing Recreation Facilities provided within the Property, the Xcel Parcel or the Denver Water Parcel, by any person or entity other than the School District; divided by (2) the Fair Market Parks Appraisal Value for such Recreational Facilities; provided that with respect to Recreational Facilities that are owned by a homeowners association, club or other non-governmental entity, and that are: (A) not available for use by persons other than members of such homeowners association, club or such other non-governmental entity, then only 25% of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement, (B) available for use by the general public, with or without a fee, during those times such facilities are open to the general membership of such homeowners association, club or other non-governmental entity, then

Statement Of Commitments, Cont.

STERLING RANCH PLANNED DEVELOPMENT 15TH AMENDMENT

Being a part of Sections 19, 30 and 31, part of the West half of Section 29, and the Northwest quarter of Section 32, in Township 6 South, Range 68 West; also part of the Southwest quarter and the Northeast quarter of Section 2 and part of Section 36, in Township 6 South. Range 69 West; and part of Section 6, Township 7 South, Range 68 West, all of the 6th P.M., Douglas County, Colorado - 3,995.79 Acres- 16,050 Dwelling Units

100% of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement, or (C) available for use by the general public, with or without a fee, during only a portion of the times such facilities are open to the general membership of such homeowners association, club or other non-governmental entity, then a portion between 25%and 100% of the of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement. The exact portion of such costs to be so counted for clause (C) above shall be as agreed between Owner and the County based on the portion of the times such facilities are open to the general public. Notwithstanding the foregoing, no more than 10% of the Parks Requirement may be satisfied by Plazas consisting primarily of hardscape improvements and the Recreational Improvements therein.

The Owner or Special District is required to submit plans through the Douglas County Location and Extent process for the review and approval of park improvements.

(iv) Shared-Use Agreements with School District. Owner shall receive credit towards satisfying the Parks Requirement for the number of acres equal to: (a) a portion of the cost of designing, constructing and installing Recreation Facilities provided within the Property, the Xcel Parcel or the Denver Water Parcel, by the School District that are subject to a shared-use arrangement allowing for use of such facilities by the general public, with or without a fee, when such facilities are not being used by the School District; divided by (b) the Parks Appraisal Value for such Recreational Facilities. The portion of such cost to be credited toward the Parks Requirement shall be determined based on the extent such facilities are available for use by the general public as compared to other Facilities for which credit toward the Parks Requirement can be given.

(B) Fees. Notwithstanding the foregoing, if the fee that is charged for use by the general public is substantially greater than the fee charged to the members of such homeowners association, club or other non-governmental entity, and such difference in fee rates is greater than the customary differences (between the rates changed to the general public versus members) in fees charged for similar facilities in the Denver metropolitan area, then only 25% of the of the cost of designing, constructing and installing such Recreational Facilities shall be counted for purposes of calculating credit toward the Parks Requirement.

(C) Tracking. The County may require that any application for preliminary plan proposing SFDUs or site improvement plan proposing MFDUs, Accessory Units, Caretaker Units or Non-residential Buildings contain a tracking report setting forth the then-current Parks Requirement and credits received toward satisfaction of the Parks Requirement. The tracking report may consist of 1) a one page exhibit showing the location and acreages of proposed park and open space tracts, the number of anticipated dwelling units, and the associated park dedication requirement that the number of anticipated dwelling units would generate, and 2) a one-page Park and Open Space tracking spreadsheet with the applicant's summarization of the community-wide park and open space dedication requirements generated and the credits received to date in accordance with Section S-3.1(A).

(D) Parks Appraisal Value. The term "Fair Market Appraisal Value", with respect to any Recreational Facilities or cash-in-lieu, means the per acre value of a parcel of park land, located within either; (i) the Final Plat or the site improvements plan within which the additional SFDUs, MFDU, Accessory Units, Caretaker Units or Non-residential Buildings, as appropriate, are located, that causes the then-current increase in the Parks Requirement or (ii)a Regional Park as designated by Owner, that Owner would have offered for dedication if Owner was not providing Recreational Facilities or cash-in-lieu to satisfy the Parks Requirement. Such per acre value shall be the amount set forth in an appraisal submitted by Owner that conforms to County standards. For valuation purposes, such appraisal shall assume the subject park land is fully platted and identified as park land in the Plat.

S-3.2 Timing.

The Parks Requirement shall be satisfied pursuant to the schedule set forth in the Commitments Matrix.

S-3.3 Reporting.

As a condition to Final Plat approval or the issuance of a building permit for any MFDU, Caretaker Unit or non-residential building, the County may require that the applicant thereto submit a summary report setting forth how the Parks Requirement has been satisfied. The summary report may consist of a one-page exhibit showing 1) the location and acreages of proposed park and open space tracts, the number of anticipated dwelling units, and the associated park dedication requirement that the number of dwelling units would generate, and 2) a one-page park and open space tracking spreadsheet summarizing the community-wide park and open space dedication requirements generated and the credits received to date in accordance with Section S-3.1(A).

S-4. WILDLIFE AND WETLANDS/RIPARIAN PRESERVATION PLAN

S-4 .1 Protection and Enhancement of Water Resources, including Wetlands and Riparian Areas.

Willow Creek, sections of Sterling Gulch and certain unnamed washes and secondary streams, which include East Willow Creek and a number of unnamed minor swales in the upland areas of the Property are included in the open space network to be dedicated in accordance with this Development Plan. To the extent reasonable, storm water quality areas within the open space network will be designed to create a series of wet meadows and shrub riparian zones (including, without limitation, porous landscape detention, extended detention, wetlands, ponds, constructed wetlands and other best management practices not inconsistent with applicable County requirements). Other portions of the storm water system will be characterized by naturalized streams and swales, herbaceous and scrub/shrub wetlands, and other riparian areas that will provide wildlife habitat. Notwithstanding the foregoing, other best management practices providing water quality, such as extended detention basins and constructed wetlands basins shall be permitted. Sterling Gulch Reservoir is proposed for the north end of Sterling Gulch near Titan Road. If constructed, this reservoir may serve as a water storage facility and may provide aquatic and shoreline habitat for fish, waterfowl, shorebirds, and other wildlife.

S-4.2 Connectivity of Core Wildlife Habitats and Wildlife Corridors .

Portions of the open space network to be dedicated in accordance with this Development Plan serve to connect the Core Conservation Areas. Willow Creek, portions of Sterling Gulch, and certain unnamed drainages within the Property are included in the open space network to be dedicated in accordance with this Development Plan.

(A) Willow Creek Wildlife Corridor.

The width of the Willow Creek Wildlife Corridor may vary but shall be at least 1,400 feet wide on average and not less tha n 1,200 feet wide at any given point, not considering: (i) road crossings and grade-separated crossings, and (ii) narrowings to facilitate road crossings and grade-separated crossings that do not materially hinder wildlife movement through the corridor. One road crossing of this area shall be permitted; other human activities on, and other uses of, these open space areas will be limited as set forth in Table 2.

(B) East Willow Creek Drainage.

The width of the East Willow Creek Drainage may vary but shall be at least 350 feet wide on average and not less than 225 feet wide at any given point, not considering road crossings.

(C) Sterling Gulch Wildlife Corridor.

The Sterling Gulch Wildlife Corridor shall extend from the north boundary of the Property to the south boundary of the Property. The width of the Sterling Gulch Wildlife Corridor may vary but shall be not less than 300 feet wide at any given point; other than: (i) at road crossings and grade-separated crossings, and (ii) narrowings to facilitate road crossings and grade-separated crossings that do not materially hinder wildlife movement through the corridor.

S-4 .3 Grade-Separated Wildlife Crossings.

Owner shall provide grade-separated wildlife crossings in the three locations shown generally on the Parks, Open Space and Trails Plan. The specific locations of such crossings shall be within the Willow creek Wildlife Corridor or the Sterling Gulch Wildlife Corridor, as applicable, and shall otherwise be determined by Owner at the time the relevant thoroughfare is constructed. Such grade-separated wildlife crossings shall be in a form selected by Owner that is either: (a) a culvert, (b) a Thoroughfare bridge, or (c) other means that would allow wildlife to make a safe grade-separated crossing of the subject Thoroughfare. If any grade-separated wildlife crossing is provided by means of a culvert, then such culvert shall have an openness ratio (i .e., the height multiplied by width divided by length) at least equal to 1.5 (as calculated in metric units).

(A) Modifications to Grade-Separated Wildlife Crossings for the Sterling Gulch Wildlife Corridor. The Owner or a special district shall provide payment to the County for a portion of the cost savings to be negotiated with the County in the earlier of 4 years after January 31st, 2021 or prior to recordation of the last final plat adjacent to the Sterling Gulch Wildlife Corridor south of the Xcel Parcel.

The Design Guidelines are intended to achieve a consistent quality image for the development of the Property.

The provisions of this Section S-7.7 shall not be deemed to relieve Owner from complying with any applicable laws.

(iii) "Archaeological Resource" means any paleontological resource or any structure or object that is at least 100 years of age and that provides information pertaining to the historical or pre-historical culture of people within the boundaries of the State of Colorado.

Solid fences, walls and hedges may exceed eight feet in height if permitted by the County.

(B) Development Areas A and B. Notwithstanding any other provisions of this Development Plan, all fencing within Development Areas A and B shall be wildlife friendly, unless otherwise permitted by the County, and except as needed to protect agricultural production.

(B) Maintenance. Owner, or one or more homeowners associations the County deems able to fulfill such obligations, or special districts designated by Owner that accept such obligations, shall be required to maintain all storm water facilities serving the Property except to the extent such facilities are deemed by the County to be public, in which case the County shall be responsible for such maintenance. Easements shall be granted to the County, at no cost to the County, to permit the County to enter and maintain storm water facilities that the County is responsible to maintain (to the extent such facilities are not located within a publicly dedicated and accepted right-of-way). At the County's request, easements shall be granted to the County, at no cost to the County, for all private storm water facilities for the purpose of maintaining the storm water facilities in the event the Owner or such other entity fails to satisfactorily maintain or repair such facilities.

(1) $1,050.

(2) the total number of Dwelling Units (other than AHUs and Accessory Units) expected within Sterling Ranch, and

(3) a fraction, the numerator of which is: (1) the lesser of: (a) the total number of Dwelling Units (other than AHUs and Accessory Units) expected within Sterling Ranch, or (b) 360, minus (2) the total number of AHUs built (and/or deemed to have been built) within Sterling Ra nch plus the number of additional AHUs expected to be built within Sterling Ranch, and the denominator of which is the lesser of: (x) the total number of Dwelling Units (other than AHUs and Accessory Units) expected within Sterling Ranch, or (y) 360.

Statement Of Commitments, Cont.

(B) Fees and Processing.

It is anticipated that, in accordance with and the goals, policies and objectives of the Douglas County Comprehensive Master Plan designed to facilitate and encourage attainable housing, the County may waive application, review, permit and inspection fees for development applications proposing attainable housing units, and the County may expedite the processing of development applications proposing attainable housing units. If the County waives such fees and expedites such applications, Owner may provide additional attainable housing units over and above that required under this Section S-7.12.

Processing Step	Processing Deadline
Completeness review by Planning Division	7 business days
Deadline for referral agencies to submit comments	20 calendar days after referral packets are mailed or electroically distributed

S-7.13 Further Development Applications.

The provisions of this Section S-7.13 are established in light of the extensive, comprehensive and detailed planning of the Property incorporated into this Development Plan, the desire to avoid the inefficiency inherent in repeating development reviews of issues which have already been addressed, and to avoid placing Douglas County at a competitive disadvantage to other jurisdictions in terms of attracting desired housing, employment, and commercial opportunities. Whether a particular land use is permitted, and whether a particular density is appropriate, shall not be raised in connection with future development approvals, except in connection with applications for Warrants and amendments to this Development Plan. Notwithstanding the foregoing, this Section S-7.13 shall not be deemed to modify any provision, process or approval criteria of the Subdivision Resolution or the Zoning Resolution, and referral agencies responsible for reviewing future development applications under the Subdivision Resolution or Zoning Resolution, as appropriate, shall have the review authority as set forth in the Subdivision Resolution or Zoning Resolution, as appropriate.

S-7.14 Signage.

To promote interesting, attractive and viable neighborhoods for residents and visitors, and to encourage unique neighborhood design and pedestrian involvement and wayfinding, building mounted signage in Planning Area D3 and special Character Zones SCZ-D, SCZ-E and SCZ-F, shall be subject to the following regulations:

(A) Size. Exterior building mounted signs shall not exceed 1,50 square feet (sum total) per 1.0 linear feet of building face. No single sign may be larger than 200 square feet.

(B) Combination and Number. For the following sign types, exterior building mounted signage may be in any combination of type and number, subject to the requirements listed herein:

(i) Signs attached parallel to the wall (i.e., signs in relief).

(ii) Signs attached perpendicular to the wall (i.e., "blade" and "fin" signs). These shall extend no more than 30 inches from the wall surface.

(iii) Wall surface painted signs other than artistic wall murals shall be limited to 2 building faces per building.

(iv) Roof signs. These must be mounted at the parapet or eave and shall extend 28 inches or less above the parapet or eave.

(v) Awning signs.

(vi) Window signs. Any signage, whether at a window or beyond it, that is legible and understandable as signage from a distance of 10' or more, qualifies as window signage. Interior architectural elements and retail products do not qualify as window signage.

(vii) Exposed neon and LED (light emitting diode) signs shall be subject to review and approval of the Director to determine if such signs would create a public hazard. Such signs shall not be permitted if they create a public hazard such as creating a disability glare on motor vehicle traffic. Technical specifications of such proposed signage shall be provided as requested by the Director to assist in the Director's determination.

(C) Numerical Variations. Departures of up to 25% from the numerical standards set forth in this Section S-7.14 may be approved by the Director to promote interesting, attractive and viable neighborhoods for residents and visitors, and to encourage unique neighborhood design and pedestrian involvement and wayfinding.

(D) Exclusions. The restrictions set forth in this S-7.14 shall not apply to scoreboards, signage for special events, or interior signage.

S-7.15 Water.

With each Development Application proposing a project within the Property the water supply for which is proposed to be nontributary groundwater underneath land within Margin B or the Central Basin (as such terms are defined in the Zoning Resolution), or at final plat if not previously provided, unless waived by the County or previously submitted, the applicant shall submit to the County the information described in Section 1810A.03 of the Zoning Resolution. Notwithstanding the foregoing, unless otherwise approved by the County, water beneath the Property (whether in Margin A or Margin B, as such terms are defined in the Zoning Resolution) shall not be used as the water supply to serve uses on the Property newly-permitted by this Development Plan.

The boundaries of any portion of the Property that Owner desires to dedicate pursuant to Section S-1.1 (C) shall be submitted to the Director for the Director's review and approval. (v) Final Plats. The boundaries of any portion of Planning Area O1 included within any Final Plat shall be consistent with the boundaries proposed by Owner and approved by the Director. Any proposed modification to the boundaries of any portion of Planning Area O1 that has been included within a Final Plat will be reviewed by the County during the platting process and shall be approved if such proposed modifications satisfies the criteria set forth in Section D-2.2(A)(iii) and the plat approval criteria set fort in the Subdivision Resolution.
